

President Shavkat Mirziyoyev arrived in Navoiy region

President of the Republic of Uzbekistan Shavkat Mirziyoyev arrived in Navoiy region on 28 March to review the creative works, the processes of reform and large projects in the region and for a dialogue with people.

Under the guidance of the First President of Uzbekistan, the Navoiy region has seen a colossal creative transformation in the years of independence. The Navoiy region, primarily, is characterized by rich natural resources, huge economic potential and assiduous residents. This large industrial region of our country consistently develops mining, metallurgy, chemicals, power industry, production of construction materials, cotton processing, food industries.

At present 17 large industrial enterprises operate in the region. The Navoiy mining complex, Navoiazot JSC, Qizilqumcement, Navoiy thermal power station and Elektrkimyo zavodi joint venture are among them. 18 companies operate in the "Navoiy" free economic zone, which manufacture over 100 competitive products.

In his pre-election manifesto, the Head of our state had laid out big plans on developing the Navoiy region. During his tour, the President is expected to review execution of these plans, prospective projects and to conduct a direct dialogue with people.
