

From Tashkent to Khorezm.

Nowadays, when you sing this famous song, you can unintentionally remember the kilometers of this road between two cities.

It is clear that, after remembering the road itself you may imagine of its current state. I can say so, today these roads establishes and repairs according to requirements of modern construction.

Facts and examples. At the same time in the regions there are total 2210 km public roads, which depends on agricultural enterprises of organization-run "Khorezmavtoyol", from these 113 km for international, 706 km for state and 1391 km for local importance roads. According to resolution of Cabinet Ministry of Republic of Uzbekistan, which was adopted in April 27, 2016, ? 126, in the 50-62 km section of the highway of 4r156 "Urkanch-Khanka-Hazorasp-Toshoka through Amudarya", 13-28 km of the road "Urgench and Khiva", 0-5 km of the road "Urkanch-Gurlen-Mangit-the border of the Republic of Turkmenistan" are constructed and repaired.

It should be highlighted about bridges, reconstruction "Khorezmkuprik" and other contractors are working out in 5 bridges in the regions. From these all, construction of the Khiva Bridge is completed, the construction will be completed in the districts Urkench, Kashkopyr, Hazarasp and Gurlan by the end of this year. In addition, construction started passing the bridge over the AmuDarya in the road 4R161 "Urgench-Beruni" by 13-km highway. According to the information of the director of "Khorezmavtoyol" HYFT F.Salayev, the construction and repairing are continues in the city of the region. For example, the reconstruction has completed in the streets "Yashlik", "Khanka", "Baynalmilal", "Shovot", "Tinchlik", "Sheraziy", "G.Gyulam", "Pakhlavan Makhmud", "Amudarya", "Biruniy", "Yangi Urkench" of the Urkench city and channel of Shovot.

In addition to the above, also a lot of work has already been done by trying to ensure the security of the region.

Including these, now there are 22 bridge over the fence, staircases and railings have been installed in more than 1,000 brands and more than 500 km lines were renewed and 30 km around the collar strengthened with stone. In order to create the favorable condition for the passengers 40 modern types of glass bus stops were built and 27 existing bus stops were repaired.

In the other words, if you come up to Khorezm you can be very cheerful and sing the song as the people of this land art, when you see these renovation and construction of the roads.
