

Shavkat Mirziyoyev: "Approximating activities of internal affairs bodies to people serves to ensuring peaceful and tranquil life of citizens"

President Shavkat Mirziyoyev got acquainted with activities of the City department of internal affairs No. 8 of Mirzo Ulugbek district department for internal affairs.

The head of our state, at the video-conference that was held on February 9 of this year, dedicated to the activities of internal affairs bodies, problems and shortcomings in the sphere, challenges for the future, noted the need of improving the infrastructure of supporting units, comprehensive reformation of the system of internal affairs bodies, optimization of their structural divisions.

City departments of internal affairs are organized under the district departments of internal affairs proceeding from these tasks, as well as in order to further approximate activities of the internal affairs bodies to people, strengthen crime prevention in the capital.

Inspector on minors and youth affairs, an operational commissioner, an investigator, a passport inspector and a preventive inspector are carrying out their activities in the City department of internal affairs No. 8 of Mirzo Ulugbek district department for internal affairs. The Internal affairs department is equipped with the most modern computer equipment. This will allow to effectively implement tasks on ensuring peace and crime prevention in the territories of makhallas named after Alisher Navoi, Babur, Shukur Burkhanov, Gulzor, "Yangi hayot", "Katta Korasuv", "Shuvtepa", where more than 32 thousand people are living. In addition, residents of these makhallas can apply to this city department.

The President of our country talked with employees of the City department of internal affairs No. 8, got acquainted with the working process carried out using modern technologies.

The purpose of approximating internal affairs bodies to people is to prevent crime, identify causes contributing to it, protect the rights and freedoms, ensure a peaceful and tranquil life for people, said the head of our state.

Presentation of a special device for automatic recognition of state registration plates of

cars and fixing offenses "Avtokon" was held. This device, installed in the car of the road safety inspector, makes it possible to recognize automobiles in the traffic flow whose owners are evading payment of fine for violation of traffic rules.

The head of our state gave instructions on further improving this device.
